Easy Gripper 2400-2T

The Easy Grippers are a range of tools designed to help tyre professionals to work faster and safer.

Handling OTR tyres is a challenge both for tyre producers, distributors, tyre service organizations, vehicle producers as well for tyre users in agriculture, construction and mining industry and harbour terminals.

3-point grip

The unique 3-point grip offers optimal grip and control when handling tyres and allows our customers to save time, avoid accidents as well as damages on tyres, rims and vehicles.

Fast and safe

The Easy Gripper 2400-2T easily mounts on existing vehicles.

With optimal grip, the camera system, precise tilt and rotation functions, dangerous situations are avoided using a forklift in the workshop.

Using a loader makes it easy to handle tyres on uneven ground or on the spot in a mine or quarry.

Mobile service

Installed on a truck crane, Easy Gripper offers the optimal flexibility allowing the driver to be able to both transport and install the OTR tyre single handedly. With the Gripper very risky and time consuming handling situations become safe and easy.

Performance

- Lifting capacity 2.000 Kg/4410 lbs
- Gripping diameter 1.450-2.400 mm/57-94"

Special features

- Unique and safe 3-point grip
- Camera system
- Easily rotates or tilts the OTR tyre as needed
- Available telescopic arms for handling of double tyres or wide duals
- Flat arm can be mounted in case of narrow space between tires and fenders
- Quick shift system for flexible use of forklifts or loaders
